WPPP Nature Center News

We are very excited to announce that we will be adding new equipment to the nature center for the spring! This will include a mud kitchen, sensory table, picnic table and benches. The classes will have many opportunities to plant flowers, plants and seeds. Children can observe butterflies and other creatures, and participate in outside art and messy play hands on activities that will connect them to nature. "Studies show outdoor time helps children grow lean and strong, enhances imaginations and attention spans, decreases aggression, and boosts classroom performance. In addition, children who spend time in nature regularly are shown to become better stewards of the environment."
